

October 2026 | *A Great Start to the School Year!*

A Great Start to the School Year!

We are off to a wonderful start to the school year! Alongside our in-school academics, we have already enjoyed several exciting outings, including visits to Mount Royal, Île Sainte-Hélène, a local fire station, and a library. We have a fantastic group of students who have embraced these experiences with enthusiasm and have proven to be excellent travellers. We look forward to many more adventures, discoveries, and opportunities to learn together throughout the year!

Learning Together, Growing Together

At Education Plus, we believe that learning extends far beyond the classroom. Our daily interactions, group discussions, shared experiences, and time spent exploring the world around us are all essential parts of our educational approach. Much of what makes our school unique is the synergy that develops when students and teachers learn together as a community. These connections, conversations, and shared moments cannot easily be recreated when a student is absent.

We kindly ask that, whenever possible, appointments and other commitments be scheduled during school holidays, PED days, or outside school hours.

Regular attendance is an important part of your child's learning experience and helps maintain the continuity, connections, and momentum that we work hard to build every day.

Projects and homework are designed to reinforce classroom learning, encourage independent thinking, and give students opportunities to explore their interests. They are an important part of the learning process, but they are not a substitute for the rich, collaborative experiences that take place at school.

Student Progress and Reporting

We will be publishing our mid-term reports on **October 8** and our first-term reports on **November 6**.

It is important to remember that a report is simply a snapshot of your child's school experience at a particular moment in time. It reflects attendance, participation, and an assessment of the work submitted. While these are useful tools for tracking academic progress and identifying areas for growth, they can never fully capture the person behind the report.

At Education Plus, we recognize that every student follows a unique path. Our focus extends beyond academic achievement to include confidence, curiosity, creativity, independence, resilience, and personal growth. A report card is not a measure of your child's character, their worth, or who they are becoming. Those are things we continue to discover and nurture together, every day.

Embrace the day!
