Have you chosen the way that you will present your project?

Project - data collection part II (Qualitative research)

- 1- Make a set of 5 or 6 questions you could ask someone else about their high school experience.
- 2- Ask your questions to someone. Record your conversation (5 -7 mins.)
- 3- Type up your conversation

## Intro

Describe the person you are interviewing?

Age, where s/he went to school

Their present occupation

Their social status (married, single)

Their economic status (ask them this one)

Their health

Anything that you might think would have an impact on their answers

impact on their answers

What is your relationship with him/her?

Where did you do the interview?

Why did you choose that person?

## **Body**

Type up conversation – word for word (you can add additional descriptive details)

## Conclusion

What did you learn about person's high school experience? Is there one or two words that they keep repeating in their answers?

How does it compare your high school experience?
